

## Knowledge Graph: Google unleashes the Big Boy

LONDON: After revolutionising the Internet, Google has now unleashed its next-generation technology — 'Knowledge Graph' which can locate even more relevant information for you than ever before, on the right-hand side of the traditional results. "The Knowledge Graph also helps us understand the relationships between things. Marie Curie is a person in the Knowledge Graph, and she had two children, one of whom also won a Nobel Prize, as well as a husband, Pierre Curie, who claimed a third Nobel Prize for the family," said Google software engineer Sarveshwar Dudd. "We're proud of our first baby step — the Knowledge Graph - which will enable us to make search more intelligent, moving us closer to the 'Star Trek computer' that I've always dreamed of building," added Dudd.
